

August Topic of the Month - Maneuvering Flight

Almost 25% of fatal accidents occur in maneuvering flight which includes go-arounds, stalls & spins, formation, aerobatics, training, forced landings, photography, and buzzing. This interactive outreach will review stall recognition and other key techniques to enhance safety of flight.

Directions: See map link: From John Hardee Expressway at KCAE turn north on Lexington Drive to Midlands Tech campus, then left on Kentucky Avenue. At the white radar dome, turn left on CAP Wing Drive.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
