

Pre-ignition / Detonation and How to Recognize and Prevent It and Its Just a Cub

Pre-ignition / Detonation Accident examples, show and tell, and reasons why ignition system maintenance is so important! Lets look at how maintenance items overlooked could cause a disaster with your aircraft with a Piper Cub scenario used as an example. Its Just a Cub! This overview will help you understand how important your aircraft maintenance done correctly is to your aircraft and your safety. This briefing will be from 6:30 pm to 8:00 pm. Bring a friend and all the questions you may have.

Directions: See map.

Flying in: Park at the FBO and go inside to the large conference room.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
