

Owner Operator Maintenance-Propeller Failures-Pre-Ignition/Detonation

This event will cover propeller failures that are detectable if the pilot and a mechanic know what to look for which we will cover in this presentation. We will also cover Pre-ignition / Detonation Accident examples and the science behind it and the reasons why ignition system maintenance is so important! See examples of failures on both and what happened. This event starts at 10:00 am and should end around 11:30 am.

This event starts at 10:00 am

Directions: This event will be held in the meeting room at Georgetown Airport located off of Highway 17. Use the link for the map to this event.
