

**FAASTeam, SC FSDO presents:**

## **June Topic of the Month-Aftermarket Safety Equipment**

A number of technologies have proven useful in reducing the likelihood of general aviation accidents. As with all technologies, pilots must be thoroughly familiar with limitations and proper operation of the equipment. We will be discussing safety equipment that you can add to your aircraft. We'll emphasize restraint systems and give you some tips for expeditious aircraft egress. We will also discuss synthetic vision and angle of attack (AOA) indicators. In closing, we will talk about pilot proficiency and why it is still the most profound influence on flight safety.

**Directions:** Greetings.

You are invited to a Zoom meeting.

When: Jun 16, 2020 06:00 PM Eastern Time (US and Canada)

Register in advance for this meeting:

<https://us02web.zoom.us/join/register/tZckf-qvqzsvGNVpNuDq-15NY9xFjXPHHRd1>

After registering, you will receive a confirmation email containing information about joining the meeting.

**A message from the National FAASTeam Manager**

Earn your WINGS to get a chance to win a cash prize. Go to
