

SC FSDO FAAS Team presents:

August Topic of the Month - Use of Weather Information

Pilots enjoy an abundance of weather information sources, but having weather information available is only part of the weather decision-making equation. Knowing how to acquire, interpret, and make operational decisions based on weather information is essential to safe flying. This interactive seminar and discussion will include the following: Use of Weather Information Planning the Flight Pitfalls of the sources and weather in general Best Practices

“Prior to attending a safety seminar, please review and abide by current CDC, State, and local health guidelines”

Note: Bring a folding Chair

Directions: Enter Charleston Executive /Johns Island Airport (off River Road) through main entrance. At the 4-way stop, continue straight (Coast Guard Station on left, New FBO on right). Take a left just past the fuel farm and park in the next parking area approximately 100 yards down. Enter door with overhead awning - presentation in common area.
