

SC FSDO FAAS Team presents:

September Topic of the Month Preflight After Maintenance

How do you determine an aircraft is airworthy when you are flying after maintenance was done? The requirements may be more than you learned when you learned to fly! To make an airworthiness determination after maintenance you need to understand Type Certificates, Condition of Safe Operations, maintenance documentation and entries, limitations related to maintenance, and what to consider as you do a post-maintenance preflight.

This seminar covers those topics and more in hopes of clarifying an area of understanding that is so important to safe flight...the A in the PAVE acronym (Pilot, Aircraft, enVironment, External Pressures). Attend and safer flight should be in your future.

Directions: From CAE, head south on Airport Blvd. Take the right onto Air Commerce Dr. and then right onto SC-602. Turn left onto Ermine Rd. In 1.5 miles, turn left onto US-1 S/Augusta Rd. Follow US-1 S into Lexington. At the intersection of Rt 378, continue straight ahead onto Old Chapin Rd and then make a left turn into the Flight Deck parking lot in 500 ft. The Flight Deck Restaurant is in the center of the shopping complex. The entrance is easily found off the courtyard near Barnes Jewelers and Horizon Travel.

Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.
