

Perry International Soaring Competition Safety Meeting

We will cover ADS-b airspace in the competition area and cover "new unscheduled" potential airspace. We will also touch on possible "Land-Out" hazards posed by recent Solar Farm appearances.

We will then brief participants on current happenings at the FAA and our FSDO and ways to contact FAA inspectors and DAR's for any participant needs.

Directions: Seminar will be held in main hanger.
"Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines."
This is a private event, no email distribution list is selected.
