

SC FSDO FAAS Team presents:

Controlled Flight Into Terrain

In this presentation we'll discuss Controlled Flight Into Terrain (CFIT) Accidents and recommendations (termed safety enhancements) from the General Aviation Joint Steering Committee - a work group that studies General Aviation Accidents. We'll discuss some Safety Risk Management (SRM) and Technological solutions to the CFIT challenge and, finally; we'll give you some best practices that will help you avoid CFIT accidents. Will also hi-lite some notable CFIT accidents in addition to:

1. Reviewing CFITS Statistics
2. Defining CFIT - FAA and ICAO
3. CFIT Accident Causal Factors
4. CFIT Accident Case study
5. Recommended Safety Enhancements

Directions: "Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines."

This is a private event for Part 61/141 flight schools. No email distribution list selected.
