

February Topic of the Month Preflight In A Box

Lets talk and do a real pre-flight using a Cirrus SR20as and example. We will be able to do a better pre-flight of any aircraft we own or rent and ensure a safer flight. Many accidents are caused by inadequate pre-flight. Lets learn how we can stop or decrease their occurrence,

We will also show how easy it is to use the WINGS PROGRAM, to increase your proficiency and log flight and knowledge activities.

Terminal building upstairs large south conference room.

A message from the National FAASTeam Manager

Earn your WINGS to get a chance to win a prize. Go to <https://www.wingsindustry.com/WINGS-Sweepstakes> for more info. Join us on Facebook: <https://www.facebook.com/groups/GASafety/>
