

CSU Aeronautics Spring Semester Kick-off - Safety Culture

Safety culture is an essential part of organizational culture. It affects the way the organization manages safety and therefore, the ultimate effectiveness of its safety management system. However, culture has a profound influence on individual pilots and those pilots can resist the influence. This interactive seminar will strive to encourage the safety culture.

This is a closed event open only to members of CSU Flight Program. For further information to contact Chris Peterson at (843) 224-1074.

Charleston Southern University (CSU) - WCCL 102 and 103.
