

August Topic of the Month - Pre-fight and In-flight Weather Resources

In this interactive presentation, we'll consider weather hazards for general aviation pilots and then look at current technologies a pilot might use to reduce the risk of an incident or accident related to the weather. We'll take a deeper look at flight weather sources that are useful on the ground and in the air. As importantly, we'll look at the limitations one must remember when using these resources. Come to the seminar, enjoy the discourse with fellow aviators, have a good meal, and hone your safety knowledge. Let's all Fly Safe!

From CAE, head south on Airport Blvd. Take the right onto Air Commerce Dr. and then right onto SC-602. Turn left onto Ermine Rd. In 1.5 miles, turn left onto US-1 S/Augusta Rd. Follow US-1 S into Lexington. At the intersection of Rt 378, continue straight ahead onto Old Chapin Rd and then make a left turn into the Flight Deck parking lot in 500 ft. The Flight Deck Restaurant is in the center of the shopping complex. The entrance is easily found off the courtyard near Barnes Jewelers and Horizon Travel.
