

CSU CFI/Staff Safety Meeting

General Aviation Joint Steering Committee (GAJSC) study of Fatal General Aviation Loss of Control Accidents found that a significant number have identified human performance deficiencies that could be addressed through Safety Management Systems components. The GAJSC feels that basic Safety Risk Management (SRM) knowledge is beneficial to all pilots. In this interactive seminar we'll discuss:

- Understanding SRM components and processes.
- Application of SRM processes to General Aviation operations.
- Pilots should understand their capabilities and limitations and strive to maintain and improve their Performance skills and abilities.

Event Details

Wed, Jan 14, 2026 at 17:00 EST
Charleston Southern University
9200 University Blvd.
WCCL 202 and 203
Charleston, SC
