

Topic of the Month -- Pre-flight and In-flight Weather Resources

In this seminar we will discuss the modern digital technologies that are designed to give you the best understanding of the weather you'll face when flying. We're going to give you tools that will make you smarter about weather conditions while complying with regulations, expectations, and good practices. We'll focus on preflight planning tools first, and then look at some in-flight sources of digital information. When you leave this seminar you'll be better prepared for whatever mother nature has in store for your next flight. Knowledge is power, so add to your toolkit to fly safer and better prepared.

From CAE, head south on Airport Blvd. Take the right onto Air Commerce Dr. and then right onto SC-602. Turn left onto Ermine Rd. In 1.5 miles, turn left onto US-1 S/Augusta Rd. Follow US-1 S into Lexington. At the intersection of Rt 378, continue straight ahead onto Old Chapin Rd and then make a left turn into the Flight Deck parking lot in 500 ft. The Flight Deck Restaurant is in the center of the shopping complex. The entrance is easily found off the courtyard near Barnes Jewelers and Horizon Travel.
