

'A Review and What's New' about Jacksonville-area Airspace

The Jacksonville FAASTeam is pleased to welcome Robert Kamm of the Jacksonville TRACON. Mr. Kamm is not averse to public speaking - you may hear his voice in your headset from time to time. A veteran controller with the Jacksonville TRACON, Robert will take us on a journey of operating in the Terminal Radar Approach Control environment, discuss system operations, and review operational safety.

We'll discuss the local airspaces that we encounter throughout the city and surrounding areas, learn about stadium TFRs, sector controller overlap, and much more.

Directions: Jacksonville Airport Authority - Craig Airport board room located across from the base of the Control Tower. If flying in, please park at Sky Harbor. If driving in, proceed all the way down the main entrance road.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
