Select #: SO1557975

Lead Representative RICHARD FUNCHEON

Please join us for a detailed discussion of an aircraft owner/operator's airworthiness responsibilities. In addition to reviewing airworthiness responsibilities, we will review NTSB accident data and data gathered from the "Project Preflight" exercise conducted at Sun-N-Fun to help emphasize the importance of conducting a thorough pre-flight.

Our speaker, Mark Laughridge is a FAAS Team Program Manager at the Orlando FSDO. Mark has worked for the FAA for 27 years of his 35 years in aviation. In addition to working on the FAA's flight inspection aircraft, Mark has also worked as an Air Carrier and General Aviation Safety Inspector. As a Commercial Pilot, he has flown corporate, freight, banners, and skydivers. He also holds an A&P Mechanics Certificate, an IA, and is a Senior Parachute Rigger.

Directions: I-95 to (Exit 180) US-192 East, left on Evans, right on NASA, left on Grumman Place, right on Tower Access Road to Harry Goode Way to FIT Aviation.

A message from the National FAAS Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAAS Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
