

Circling Approach in deteriorating WX conditions.

This month's discussion involves a pilot maneuvering his airplane to the landing runway during the final stages of a circling approach, dealing with low weather conditions, and a few other minor distractions.

Directions: The Vigilante Room is in the Rental Car Building across from the Sanford Airport Commercial Airline Terminal. Park in the short term parking and bring your parking stub to the meeting for validation. If you fly in to KSFJ for this event, park at Millionair FBO and get a courtesy ride over to the seminar's location.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
