

Thunderstorms: Hazards And Avoidance

Knowledge of how thunderstorms develop and what to do if you find yourself inside a storm is important if you want to survive an encounter with one of these large aircraft grinding machines. "Beyond the Preflight" is designed to assist a pilot by enhancing their aircraft preflight knowledge beyond the standard use of their preflight checklist.

Directions: From I-4 take County Line Road (exit 25) southbound, left turn on W Pipkin Road, left turn on Aviation Drive (immediately before GEICO building which is on left). Take Aviation Drive to end, turn right. Entrance to Polk State College is on left located in center of building. Once inside follows signs to Room ASL150.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
