

FAASTeam presents:

FAA Safety Team Meeting for all Representatives of the Orlando District

The Orlando FSDO would like to hold a meeting for all of the FAASTeam Representatives within the district. The meeting will consist of introductions and briefings by the FSDO's managers and FPMs. It will also consist of some refresher training related to FAA Safety.gov, such as Safety Program Airmen Notification System (SPANS) management and other items. The office manager will discuss some of the changes to the Safety Program including the district's risks which will require everyone's attention if we are to see improvement in the General Aviation (GA) community.

There will also be some discussions of the expectations and vision regarding the future of the FAA Safety Team (FPMs and Representatives, etc.). The Safety Team can continue to be an integral part of the local aviation safety program by enhancing the Orlando FSDO's Safety Program while targeting the district's highest risks through various means.
