

FAASTeam presents:

Team CJ Update

The CJ session will provide owners with the latest information on technical issues that the fleet is reporting. Cessna will update pending service bulletins and letters as well as provide information to owners on trends being seen in the fleet. We will also discuss seasonal topics to help you get your aircraft ready for the fall and winter seasons. Our being able to see the entire fleet gives us the ability to track issues and relate them in seminars to provide you with the latest information about your specific model Citation.

Directions: The Broadmoore

1 Lake Avenue Colorado Springs, CO 80906

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
