

# GET BACK IN THE LEFT SEAT

POWERED BY AOPA

## Once a pilot, always a pilot...

### But, feeling a little RUSTY?

Life may have gotten in the way, but the dream of flight can be yours again. Returning to the skies is not as difficult as most rusty pilots think.

**No FAA checkride or test**

**Might not even need a medical**

Participate in [Rusty Pilots](#) and you've fulfilled the ground instruction required of the flight review

We're inviting you back into the cockpit and will help you get there.

Come and participate in a **FREE** Rusty Pilot program with fellow lapsed pilots. We will help you understand what's changed in aviation since you last took the controls and brush up on your aviation knowledge.

The Rusty Pilots program is developed by AOPA in partnership with local flight training providers in order to create the best environment for getting you back in the air and a part of the general aviation community.
