

'Future Control of Our Airspace by Palm Beach Approach Control'

Palm Beach Approach Controllers/Management will present a pictorial map of the controlled airspace and brief us on the progress toward taking control of the airspace from Miami Center in 2016. Corridors, altitudes and restrictions will be covered. Vero Beach Tower will have representatives to answer questions of the forthcoming coordination between controlling agencies. Q & A should be spirited.

Directions: Flight Safety Academy Hangar is across from the tower and just west of the Main Terminal Bldg. Enter on the west side of the hangar (door closest to the wire fence-runway)

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
