

2016 SUN-n-FUN Forum - ADS-B Avionics Solutions

Are you ready for January 1, 2020? On that date, nearly all US registered aircraft will have to have ADS-B - Out capability or face grounding. ADS-B is one of the new technologies central to the large-scale upgrade of the National Airspace System known as NextGen. Come and hear an expert from a manufacturer of some of these systems, and ask specific questions about panel upgrades that may appropriate to your aircraft. This is a live presentation only.

Directions: The FAA Safety Center (new name: Orlando Field Office) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. Forums entrance is on the west side of the building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
