

2016 SUN-n-FUN Challenge - Project Preflight

Many aircraft mishaps and occurrences can be attributed to a poor preflight. Come test your attention to detail by preflighting an actual GA aircraft with a series of faults intentionally placed on the subject aircraft. Expert knowledge of the make and model is not required; knowledge and ability to apply regulations is a definite advantage! Contest rules available at the site. This is a live, timed, self-directed activity only. Free entry! WINGS credit available to all participants!

Directions: The FAA Safety Center (new name: Orlando Field Office) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. Forums entrance is on the west side of the building. Contest aircraft located on northeast lawn of the facility.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
