

ABS-B - An Update and Explanation

In cooperation with Bragg Avionics, the Jacksonville FAASafety Team presents an informative ADS-B seminar featuring Brian Babik, pilot and Aviation Territory Manager at Appareo, the makers of Stratus. Learn more about ADS-B and understand what's important when choosing the right ADS-B option to comply with the 2020 mandate. Brian will explain how ADS-B works, the two technologies currently available, the trends in upgrades to date, and the various features available to you to improve situational awareness. He will also provide tips on how to get the most out of ADS-B and important features to look for.

Directions: Jacksonville Airport Authority - Craig Airport conference room located at the base of the Control Tower. If flying in please park at Sky Harbor.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
