

Practical Approaches to Collision Avoidance

Mid air collisions (MAC) have been a reality since the Wright brothers said “let's build another one.” Though rare, mid airs often always have disastrous if not fatal consequences. This presentation will increase in-flight safety and decrease in-flight stress by adopting a practical approach to mid air collision avoidance techniques.

Directions: Park in short term parking lot. Parking vouchers will be provided. Parking is free. Enter the main terminal building, up the escalator and follow the signs to the safety seminar. Fly-In aircraft, Sheltair is the closest FBO, about a 5 minute walk to main terminal. Sheltair will not charge a ramp fee to seminar attendees on the seminar day. Sheltair phone 386 255 0471.
