

## Following Proper Procedures in Aircraft Maintenance

This seminar will use several, actual aircraft accidents that resulted from procedural oversights by both pilots and maintenance personnel. The goal is to demonstrate how the accident chain developed and provide discussion on the importance of even small events. All aviation enthusiasts and participants are encouraged to attend. This is for both pilots and mechanics.

**Directions:** By Land: West on Harry Sutton off of Nasa Blvd. The building just west of airport terminal.  
By Air: Advise ground control going to Eastern Florida State College Ramp.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
