

## Panels Pilots and Planning

The Jacksonville FAAS Team welcomes Garmin Representative Joe Stewart and Bragg Avionics President Michael Bragg! Once again, bringing to us a fascinating set of emerging and continually improving technologies, Joe and Michael will show us how to improve risk management strategies through new developments in synthetic vision, improve flight safety with XM Weather and traffic alert technology, and keep us up to date with the latest on ADS-B. We'll see Garmin's newest panel-mounted products, and portable and wearable receivers, showing us how we can maximize cockpit resource management.

**Directions:** Jacksonville Airport Authority - Craig Airport conference room located at the base of the Control Tower. If flying in, park at Sky Harbor or Craig Air Center.

### **A message from the National FAAS Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
