

2017 SUN-n-FUN Forum - Fundamentals of Loss of Control

Loss of aircraft control remains on the NTSB's "Top Ten" special emphasis risk areas. Few understand the reasons why pilots lose control of their aircraft better than Jim Alsip, our featured speaker. This discussion will provide real-world insight into one of the most deadly predicaments in General Aviation, and provide you with knowledge you can use immediately to prevent loss of control from happening to you. This is a live presentation only. Free seminar! WINGS credit available!

Directions: The FAA Safety Center (other name: Orlando Field Office) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. Forums entrance is on the west side of the building. Pre-registration highly encouraged!

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
