

## 2017 SUN-n-FUN Forum - Unmanned Aircraft Systems Update

The Unmanned Aircraft Systems (UAS) industry is revolutionizing aviation in particular, and the US and other economies in general. This new technology is itself undergoing rapid change. Come hear James Malecha of the FAA's AFS-830 division, present the latest UAS issues facing the FAA and to get a sense of where the UAS regulatory environment is heading in the near and long terms. First of two offerings. This is a live presentation only. Free seminar! WINGS credit available!

**Directions:** The FAA Safety Center (other name: Orlando Field Office) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. Forums entrance is on the west side of the building. Pre-registration highly encouraged!

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
