

Orlando FSDO FAASTeam presents:

# **Transitioning to Light Sport Aircraft- the Perfect ILS - and TFRs**

>Lou Mancuso is known as "The Landing Doctor" as he has spent his life trying to improve the process of teaching new pilots how to land safely. Lou has created the Personal Limitations Checklist, Ground Proximity Awareness Training and the Defined Go-Around to keep you and your loved ones safe. Come listen as Lou speaks about flying light sport aircraft and the differences pilots should know about when transitioning from many GA single engine aircraft to a light sports aircraft. Lou will also discuss the availability and advancements of light sport aircraft flight electronics.

>"Delta on the Dot", Flying the ILS. Rock will present a better technique for flying the ILS to a more successful outcome. Come learn a foolproof technique taught at one of the largest simulator facilities in the US on flying a smooth ILS approach without chasing the needles. A great presentation for beginners and seasoned instrument pilots both.

>Temporary Flight Restrictions. Our new president likes to come to Florida often. What that means to us is frequent and sometimes sudden TFRs being initiated in our neighborhood. Rich will review the basics of the TFR, how to find out where they are, and what will happen if you accidentally fly into one.

## Event Details

**Thu, Mar 30, 2017 - 19:00 EDT**

**Leesburg Airport**

8807 Airport Blvd

Administration Bldg.

Leesburg, FL 34788

**Contact: RICHARD BURNS**

**352-391-1233**
