

Orlando FSDO FAA Safety Team presents:

Chart-Mania!

Chart-Mania

Although this 2-hour seminar was originally offered in October, some technical difficulties precluded its complete presentation; so, it's being offered again in its entirety at this seminar.

Whether you use paper charts in your cockpit or if you have all your charts neatly 'folded' into your Electronic Flight Bag, you'll want to attend this review of the finite points in chart interpretation. And if you use an EFB flight planning software, be sure to bring your iPad or tablet computer with you for use in this seminar.

With various flight planning software options available to pilots, it's so easy now to just enter a departure point, a destination airport, and let the flight planning software draw our direct route. We may only rarely look at the charts during our actual flight other than to watch the progress of our little airplane on the screen of our tablet computer as it wings its way toward our destination. However, it is still appropriate and important to review symbology on the charts to assure our ability to correctly and safely interpret its meaning and applicability for our next flight.

Come join the discussion with your fellow aviators for a review of aviation charts as we probe some

Event Details

Mon, Dec 18, 2017 - 19:00 EST

**Vigilante Room, Sanford Airport
(KSFB)**

1200 Red Cleveland Blvd., Sanford,
FL

Vigilante Room at Orlando Sanford
Airport

Sanford, FL 32773

of the lesser known symbology that may just be useful on your next flight. This seminar will offer you 1 Knowledge Credit for your Basic and Advanced WINGS Phases and will serve as the monthly IMC Club meeting. Your knowledge & experience is valuable to your fellow airmen/women; please participate and share your knowledge so we all become safer aviators.

Directions: The Vigilante Room at Sanford Airport; it's in the Rental Car Building across the street from the Commercial Airline Terminal. Bring your parking ticket to the meeting for validation resulting in free parking. If you fly in to KSFB for this WINGS event, you can park at Million Air FBO and get a courtesy ride over to the Vigilante Room.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
