

Orlando FSDO FAAST Team presents:

## **Pushing the envelope - An invitation to disaster**

## Pushing the envelope - An invitation to disaster

We are not talking about an engine performance graph with small lines and dots on it; rather, we are referring to three (3) recent local accidents: The MLB player's crash in an Icon A5, the Bartow crash, and the King Air crash out of Sanford International. Nine (9) lives were lost in accidents where the pilots may have pushed themselves beyond their flying experience and capabilities. Reading the details leaves many of us wondering, "What were they thinking?"

As the NTSB finalizes the official accident reports, we will have an opportunity to review video tapes, ATC voice recordings, and discuss other known facts. This is not to assign blame, but an effort to understand how and why things went so terribly wrong.

Analysis "After an Accident" is always helpful, but please be ready to contribute your own personal experiences that may help keep the rest of us from falling into deadly traps. This seminar will offer you 1 Knowledge Credit for your WINGS phase and will serve as the monthly IMC Club meeting. Your knowledge & experience is valuable to your fellow airmen/women; please

participate and share your knowledge so we all become safer aviators.

**Directions:** The Vigilante Room at Sanford Airport; it's in the Rental Car Building across the street from the Commercial Airline Terminal. If you fly in to KSFB for this WINGS event, you can park at Million Air FBO and get a courtesy ride over to the seminar's location in the Vigilante Room. A big shout out to Million Air FBO whose manager will waive the Ramp Fee and offer a discount on Avgas if you mention that you're attending the WINGS Event.

#### **A message from the National FAASafety Manager**
