

Vero Beach ATCT presents:

Vero Beach Regional Airport ATCT Runway Safety Action Team (RSAT) Meeting

The Treasure Coast FAASTeam would like to announce the Vero Beach Regional Airport Runway Safety Action Team (RSAT) meeting to be conducted by Mr. Reginald Johnson, Air Traffic Manager, Vero Beach Regional Airport ATCT and Mr. Todd Scher, Vero Beach Regional Airport, Assistant Airport Director.

The RSAT meeting is, for all practical purposes, an FAA effort to improve runway safety by reaching out to the tenants and users of a particular airport in order to promulgate runway safety data and gather input from the airport community on potential safety issues they might have experienced or observed. During the RSAT, ATCT staff will be the primary presenter and the airport will have an opportunity to brief attendees on Airport Operations Area (AOA) construction projects and their impacts to airport operations, and to answer any operational questions attendees might have.

The Orlando FSDO-15, along with your Treasure Coast FAASTeam, encourages all aviation minded people to attend this important presentation. It doesn't matter the certificate or rating you hold, if you know somebody with an interest in aviation, whether it's your mechanic, another pilot, your right seat buddy or just somebody with as much interest in
