

## SUN-n-FUN 2019 Forum - Human Factors - Flying Blind

“Flying Blind”: You may have 20/20 vision...but what do you really see? We will examine the human brain (hardware) and human mind (software) as they relate to our visual system. Too often we “look” but do not “see.” This can be a function of our “software” and/or “hardware.” In all cases, this blindness must be understood so that we may incorporate techniques to improve our visual performance. This is a live presentation only. Free seminar! WINGS credit available!

**Directions:** The FAA's "Orlando Field Office" (aka FAA Safety Center) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. We are the large building with the rooftop deck. Forums entrance is on the west side of the building. Pre-registration not required, but highly encouraged!

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
