

Orlando FSDO FAA Safety Team presents:

SUN-n-FUN 2019 Forum - UAS Regulatory Updates

The regulations that made manned aviation the safest form of transportation were built over decades of experience, gradual growth in a defined industry, and hard lessons learned. Unmanned aircraft have proliferated from military tool to common household goods in a matter of years, challenging FAA rules and regulators every day with unique safety cases to consider, and a new class of aviators to reach that now includes the general public. Learn how the FAA is using waivers, exemptions, and special projects to create new regulations or revise existing regulations for everyone tomorrow. This is a live presentation only. Free seminar! WINGS credit available!

Directions: The FAA's "Orlando Field Office" (aka FAA Safety Center) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. We are the large building with the rooftop deck. Forums entrance is on the west side of the building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
