

Orlando FSDO FAA Safety Team presents:

SUN-n-FUN 2019 Forum - Loss of Control Prevention

Loss of Control Inflight (LOC-I) is the primary cause of fatalities in aviation. It dominates in all areas from homebuilts to commercial jets worldwide. National Transportation Safety Board Member Earl Weener has called LOC-I a “stubbornly recurrent safety challenge.” Join veteran pilot and trainer Patty Wagstaff as she helps us better understand this phenomenon and offer actionable strategies for pilots and new training approaches and preventive measures for CFIs.

This is a live presentation only. Free seminar! WINGS credit available!

Directions: The FAA's "Orlando Field Office" (aka FAA Safety Center) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. We are the large building with the rooftop deck. Forums entrance is on the west side of the building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
