

Orlando FSDO FAA Safety Team presents:

# **SUN-n-FUN 2019 Forum - I am a Pilot Not a Meteorologist**

I'M A PILOT, NOT A METEOROLOGIST – The FAA's Weather Technology in the Cockpit (WTIC) recently assessed pilot weather knowledge by administering an exam to a diverse group of pilots with varying demographics and qualifications. The study identified a number of aviation-related weather concepts that were frequently misunderstood. This session will be an interactive pilot-oriented meteorology tutorial to clarify these concepts. In addition, the session will provide information on weather products being developed by the FAA's Aviation Weather Research Program (AWRP) and answer meteorology-related questions from attendees. This is a live presentation only. Free seminar! WINGS credit available!

**Directions:** The FAA's "Orlando Field Office" (aka FAA Safety Center) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. We are the large building with the rooftop deck. Forums entrance is on the west side of the building.

#### **A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
