

SUN-n-FUN 2019 Forum - Night Flying - What Your CFI Did Not Tell You

Max will cover the common myth that flying at night is no different than flying in the daytime because the airplane doesn't know it's dark. While perhaps clever, that's irrelevant. What does matter is that night accentuates the shortcoming of pilots' senses and perceptions, which makes it harder to fly safely at night. Join us to learn what your CFI did not tell you about flying at night. This is a live presentation only. Free seminar! WINGS credit available!

Directions: The FAA's "Orlando Field Office" (aka FAA Safety Center) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. We are the large building with the rooftop deck. Forums entrance is on the west side of the building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
