

Orlando FSDO FAA Safety Team presents:

IMC Club A Spirited Departure from St Louis

You have departed on an IFR clearance. ATC gave vectors for the climb and you enter IMC.

Then, you get a surprise.

What's going on? What to do next? Follow along with the scenario, and let's discuss ideas and options.

Please join us for the inaugural meeting of the Merritt Island chapter of the IMC Club.

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying"

focused on building instrument flying knowledge and skills. The program's network promotes a

safety culture through continued education in the belief that we develop safety and proficiency through education and real life experience.

Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips.

Through the FAA Safety Program, aviation professionals provide informative WINGS presentations.

You do not have to be an instrument rated pilot to attend. Membership in

the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information

and to take part in this event, click the link below and register TODAY for this 1-hour interactive

discussion!
