

Orlando FSDO FAA Safety Team presents:

Florida Aviation Network Presents Plane Time!

The Florida Aviation Network (FAN) is broadcasting this popular aviation safety talk show that is recorded "Live". All aspects of aviation could be discussed; however, we plan to emphasize the often-overlooked aviation maintenance side of things. Make time to view and enjoy "Plane Time" - It might even save your life. Watch with a friend! Special guest for this show is Richard Porter, second-generation aviation mechanic with Porter's Radials, LLC of Ocala, Florida and Jennifer Sasser, Principal at the Central Florida Aerospace Academy in Lakeland, Florida. The Central Florida Aerospace Academy exists to provide a meaningful and content-rich education that will inspire and motivate students at all levels. Students are challenged to reach high levels of achievement in science, technology, engineering, and mathematics in preparation for high-tech careers in the fields of aviation and aerospace.

Directions: There is no registration required – Just go the Florida Aviation Network site

<https://www.floridaaviationnetwork.com/> and click on the Watch Live Programs link or "Live" logo.
