

Understanding the Wind Around Structures in Commercial Drone Operations

This "DronePro" webinar will give the participants an understanding of the behavior of the wind around structures, trees, and small landscape features. As an FAA Part 107 Drone Pilot, it is very important to understand the wind while you are flying drone commercial operations. Bring a friend, join us and learn more in this FREE webinar!

Directions: Early pre-registration is encouraged, but do not pre-register here. Instead, please pre-register at the following Registration

URL: <https://attendee.gotowebinar.com/register/1282680783496975628> Webinar ID: 830-646-899

When you register, you may receive solicitation e-mails from the commercial platform provider; you may opt out at any time.

A message from the National FAASafety Team Manager
