

Orlando FSDO FAAS Team presents:

Building Confidence in Your Takeoffs and Landings

Landing accidents outnumber takeoff accidents by three to one but they are much less likely to result in fatalities. We'll give you 5 tips to build your confidence with landings. Accurate assessment of your health and well being are essential to safe flight. We'll cover medical factors. Pilots must accurately assess their skill with the mission aircraft and environment. We'll give you some parameters to self-assess. Finally, we will discuss Best Practices for Takeoffs and Landings.
