

## After Market Safety Equipment

This will be a FREE presentation focusing on the highlights of industry-driven areas of concern. Special emphasis will be placed on optional but very useful after-market safety equipment. This will help all of us involved in aviation, improve our safety/situational awareness, safety practices and generate dialog within our community.

**Directions:** From I-95, take Exit 220, turn east on Garden Street (SR 406) approximately three miles, turn left on North Williams Ave. approximately 1 mile on the left. Building 10, in the class room.

“Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.”

### A message from the National FAASTeam Manager
