

Orlando FSDO FAA Safety Team presents:

CFI Special Emphasis Webinar - Airworthiness Insights!

This installment will feature an eye-opening discussion of an area of common weakness among CFI's: Airworthiness determination. Is your aircraft really airworthy, or is it just flyworthy? How can you show that an aircraft is in compliance with FAA standards and regulations? Come to our webinar and find out! Ben Coleman is a former NTSB Accident Investigator, a former FAA Inspector and Safety Program Manager (forerunner of the FAASTeam), and a seasoned A&P mechanic with Inspector Authorization. He works as a consultant in a number of specialty enterprises relating to safety of flight. He is also a volunteer and a lead interviewer with FAASTeam Industry Member Florida Aviation Network (FAN).
