

Gville Fliers Hangar Hangout

Building on our series of what causes accidents and where these accidents take place, we are going to delve into Upset Recoveries. This FREE one-hour basic review will easily transfer to any airplane you will fly. Being well versed in these procedures will protect you from being surprised when someone or something presents you with a strange scenario.

Directions: On Waldo Road, go Northeast past the airport. At the NE 49th Ave stoplight, turn right, go 0.7 miles, and look for the hangar on the right side.

A message from the National FAASafety Team Manager
