

Exploring Transition Training!

This presentation acquaints the audience with Loss of Control (LOC) accident experience and makes the case that effective airframe-specific transition training can be key to avoiding many LOC events. Suggestions for choosing a flight instructor, getting the most out of transition training, and tips for avoiding LOC events are presented.

Directions: From I-95, take Exit 220, turn east on Garden Street (SR 406) approximately three miles, turn left on North Williams Ave. approximately 1 mile on the left. EAA Chapter 866, Building 10, in the class room.
