# INTRODUCTION

- The Airmen Certification Branch utilizes 30 Legal Instruments Examiners to issue 24 types of airmen certificates with a multitude of ratings, each requiring completion of various qualifications. Certificates are issued only after a thorough examination to ensure all regulatory and procedural requirements have been met.
- Each Legal Instruments Examiner must complete a 2-year comprehensive training course consisting of 30 modules. Each module consists of reading assignments, classroom training, on-the-job training and testing with a comprehensive final exam at the conclusion of the course. Examiners are required to understand and interpret Title 14 CFR Parts 61, 63, 65, 67, 91, 121, 135, 141, 142, and all agency Orders, Handbooks, and Notices.

**AFB-720 is the final authority on the issuance of airman certificates.**

# FREQUENTLY ASKED QUESTIONS

- ? A **name correction** is when the first name was spelled wrong, such as Glen & Glenn, the first name was entered as Bob and should be Robert, a suffix was added or removed, a hyphen is added or removed or a second last name was omitted.
- ? A **name change** is when a marriage, divorce or other court ordered name change takes place. Airmen cannot drop a last name or change a last name without a court order. Only inspectors can process name changes. A copy of the passport, marriage license, divorce decree or court ordered document should be reviewed by the inspector.
- ? The following paths are **not available in IACRA**: IPL Canada Conversions, Combination Private/Instrument, Power Lift ratings, Military Competency CFI Reinstatements, Hold for Age, Medical Flight Tests and Sport Proficiency Check. Inspector processed name, gender, nationality and date of birth change applications will be paper.

# FREQUENTLY ASKED QUESTIONS

- ? 61.75 Verification Letters are transmitted to the FSDOs using IACRA. FSDOs receive a nightly email for the new letters available. **The designated examiners must request the verification letters from the FSDO.** The designated examiners **do not** have access to the letters via IACRA. The airman can retrieve the verification letter using IACRA until it expires. Inspectors can retrieve the verification letter for two months after the expiration date.
- ? When an airman **changes countries** for a 61.75 a new application is required with a new verification letter. You should destroy the superseded certificate and let us know it was destroyed in the remarks section.
- ? **Commercial level** 61.75 certificates are no longer issued; however, those that were issued prior to August 4, 1997 are grandfathered in and can be used to add additional ratings at the private level. The limitation **“Not valid for the carriage of persons or property for compensation or hire or for agricultural aircraft operations.”** is required.

**NEW!**

# New Paragraph for All Letter Types

**NEW!**

**POLICY HAD DETERMINED THAT AIRMEN THAT DO NOT HOLD A PILOT IN COMMAND RATING AND/OR THEIR FOREIGN LICENSE WAS BASED ON ANOTHER COUNTRY CAN NOW USE THEIR FOREIGN EXPERIENCE TO TAKE A PRACTICAL TEST TO RECEIVE AN AIRLINE TRANSPORT PILOT CERTIFICATE .**

Some ratings shown on a verification letter may not be eligible for conversion to an FAA certificate. Airmen Certification has verified the authenticity of the applicant's foreign license, but the applicant **MUST** still provide appropriate documentation that the rating(s) held on the foreign license parallel U.S. rating(s) in accordance with 14 CFR §61.5(b) or §63.33(a). **If the applicant is applying in accordance with §61.75, IPL or T-IPL, a pilot in command rating must be shown on the foreign license and the foreign license cannot be issued on the basis of another country.** The Flight Standards District Office or Designated Examiner has the responsibility to determine if the ratings on the foreign license conform to the appropriate Code of Federal Regulation.

**YOU MUST NOW DETERMINE IF THE AIRMAN IS ELIGIBLE**

# IACRA INFO AND UPDATES

- ❖ Limitations for Private and Commercial certificates are now carried over from the airman's record and are displayed on the Certificate Summary and final temporary and can be removed by the Certifying Officer if necessary. Big reason for correction notices.
- ❖ Applicants now have the option to sign applications on a separate device.
- ❖ A pre-approval number from DMS will be required prior to completing most IACRA applications. The designated examiner should have their DMS number ready when logging into IACRA. For example **PR-123456789-2020-0001**. If a mistake is made when entering the number in IACRA the application will process but the DMS system will need to be updated with the correct number.
- ❖ Knowledge tests taken on and after January 13, 2020 will be located by FTN number. If there is an error with the last name or Suffix a paper application will be required.
- ❖ Now you have the ability to process applications to remove limitations without a practical test. For example to remove the SOE limitation and the Restricted ATP limitations.

# GOOD TO KNOW

**DON'T BE IN A HURRY!** After you complete the application put it down and look away for a few minutes. Review the application again before mailing for any omitted boxes or information. This will save you time in the long run.

- ❖ Knowledge test requirements can be found in the Order 8080.6H Chapter 4 starting at Figure 4-1.
