

Aerospace Medicine and You

Teaching Points:

- FAA's Office of Aerospace Medicine provides medical certification guidance and medical information to pilots.
- BasicMed – an alternative to traditional pilot medical certification is available to most pilots who are not engaged in flying for compensation or hire.
- The effects of commonly prescribed and over-the-counter drugs can comprise pilot's ability to fly safely.
- Pilots must consider the effects of combinations of drugs. This is difficult to do without consulting a physician.
- AMEs are the best source for the effects of drugs and combinations of drugs.
- Pilots must disclose all of their medical issues to their AMEs in order to receive a comprehensive assessment of their medical condition and fitness to fly.

Event Details

Sat, Oct 7, 2023 at 09:30 EDT

**Arthur Dunn Air Park, EAA
Chapter 866**

480 North Williams Ave
Classroom in Bldg. 10
