

## Aerospace Medicine and You

### Teaching Points:

- FAA's Office of Aerospace Medicine provides medical certification guidance and medical information to pilots.
- BasicMed – an alternative to traditional pilot medical certification is available to most pilots who are not engaged in flying for compensation or hire.
- The effects of commonly prescribed and over-the-counter drugs can comprise pilot's ability to fly safely.
- Pilots must consider the effects of combinations of drugs. This is difficult to do without consulting a physician.
- AMEs are the best source for the effects of drugs and combinations of drugs.
- Pilots must disclose all of their medical issues to their AMEs in order to receive a comprehensive assessment of their medical condition and fitness to fly.

### Event Details

**Thu, Oct 12, 2023 at 19:00 EDT**  
**Spruce Creek, Private Hangar**  
222 Cessna Blvd  
Port Orange, FL

**Contact: Joseph Schmalz**

**754-213-3952**
