

Gville Fliers Hangar Hangout

Many times an accident happens before the start switch is engaged. When a pilot has a Hazardous Attitude and ignores subtle hints that today may not be the best day to fly, tragedy may ensue. Lets look at ourselves and ask some very important questions about our own attitudes. This FREE one-hour basic review will easily apply to every flight you ever make. Dont leave home without it. Being well versed in these procedures will protect you from being surprised when someone or something presents you with a strange scenario.

On Waldo Road, go Northeast past the airport. At the NE 49th Ave stoplight, turn right, go 0.7 miles, and look for the hangar on the right side.
